

## An intense dissemination schedule in fall for the FlexPlan project

FlexPlan

Hot fall season for the FlexPlan project. Several dissemination events are scheduled in the months of September – October 2020:

- **UPEC 2020 virtual Conference: 1-4 September 2020**, <http://upec2020.polito.it> - Presentation of a paper on project layout and modelling approach by the Project Coordinator: Gianluigi Migliavacca (RSE)
- **ISGAN Academy webinar: 9 September h14.00-15.00 (public event: no registration fee)** - Project overview and dissemination of deliverable D6.1 (regulatory issues). Participants: Gianluigi Migliavacca (RSE) and Andrei Morch (SINTEF Energi)
- **EEM Virtual conference: 16-18 September**, <https://eem20.eu/> - Presentation of a paper on a survey of the present EU regulation on flexibility and storage and their possible interaction with grid planning. Presentation by Andrei Morch (SINTEF Energy)
- **The fourth Energy Modelling Platform for Europe EMP-E 2020 (“Modelling Climate Neutrality for the European Green Deal”): 6– 8 October**, <http://www.energymodellingplatform.eu> – The FlexPlan Project Coordinator Gianluigi Migliavacca (RSE) will chair a 30 minutes debate on the changing role of DSO. He will highlight ideas coming from the two complementary projects SmartNet and FlexPlan.
- **Enlit Europe** (<https://www.enlit-europe.com>), former Energy Utility Week Europe: while the physical conference, was postponed to 2021 due to the COVID19 emergency, a set of virtual events was retained for 2020. In this frame, FlexPlan organizes a **dedicated session of 1.5 hours on 19 October (public event: no registration fee)**. The session will be coordinated and chaired by the Project Coordinator Gianluigi Migliavacca (RSE) and will see a choral participation many leading scientists of the project: Hakan Ergun (KU Leuven), Raul Rodriguez (TECNALIA), Björn Matthes (TU Dortmund) and Andrei Morch (SINTEF Energi).

More detailed news will follow on the FlexPlan web site closer to each single event.
